

About OverDrive Downloadable E-Books and Audiobooks

In addition to the great print resources available in the library, the Case Memorial Library also offers free downloadable e-books and audiobooks through OverDrive.

OverDrive is a large database of downloadable audiobooks and e-books compatible with computers, e-readers, smartphones, iPads, iPods, and other devices. Providing access to popular and new titles as well as classics, OverDrive is accessible to all Orange residents with a valid library card in good standing.

The e-books and audiobooks check out for varying borrowing periods and are automatically returned at the end of the borrowing period. If the title you are looking for is checked out you may place a hold on it. You may also add e-books and audiobooks to your "Wish List" if you would like to keep a list of books to check out in the future.

To take advantage of downloadable library books, follow the steps outlined in this brochure.

We hope you're as excited about this service as we are!

If you still have questions about how to download e-books to your device after attempting the steps outlined in this brochure, you can make an appointment with a Librarian for one-on-one training.
